SUMMARY

Product Designer with 4.5+ years of experience building digital products serving 1M+ users across fintech, B2C, and gaming. Skilled in end-to-end product design, product strategy, and stakeholder collaboration, aligning design decisions with business goals and using AI-powered workflows to ship faster without compromising design quality.

EXPERIENCE

Product Designer 2 — Apr 2025 – Present

FYERS Securities Pvt. Ltd., Bengaluru

- Own the end-to-end membership experience, from discovering benefits to accessing premium features.
- Designed a unified wealth tracker and holdings-transfer flow, enabling **12,000+** users to move portfolios from other brokers to FYERS.
- Drove growth across the trading funnel with guest onboarding, trading insights, options analytics and keyboard shortcuts, turning first-time visitors into active traders.
- Rebuilt feature discovery as a unified **What's New** hub with tag search and filters, replacing multi-page navigation.
- Contributed modular components and interaction standards to the FYERS design system across core platforms.

UX Designer 2 — Aug 2023 – Apr 2025

FYERS Securities Pvt. Ltd., Bengaluru

- **Onboarding & Growth Optimisation:** Redesigned the end-to-end onboarding journey, increasing lead-to-PAN conversion from **27.5% to 45.9%** and lead-to-eSign completion from **~15% to ~31%**, driving **82.7%** first-deposit-to-first-trade conversion, maintaining **95%+** KYC approval rates, and earning the **FYERS Force Award**.
- Designed the DDPI (Demat Debit and Pledge Instruction) activation flow, driving **45,000+** activations in six months.
- Led research and end-to-end UX for self-service account and KYC workflows, reducing support dependency.
- Simplified order-placement workflows and added new order types, making it faster and easier to place orders.

Product Designer — Feb 2022 – Jul 2023

Khelgully Gaming Pvt. Ltd.

- Designed core web and mobile experiences, driving a **40%** increase in session time and a **30%** uplift in installs.
- Redesigned onboarding and tournament experiences, contributing to **30×** growth in weekly tournament activity.

UI/UX Intern — Sep 2021 – Feb 2022

AthrV-Ed, Udupi

- Redesigned the AIC Nitte website and designed a web-based test-creation tool, from UX flows to final UI.

PROJECTS

- **Am I Underpaid.** AI-driven compensation benchmarking tool built with Codex and Hermes Agent at the Hermes Agent Buildathon, helping tech professionals assess pay parity. View project
